## ABOUT THE EVENT

Before your organisation can become an agile enterprise, your PMO has to adopt a more agile mindset. No longer do PMOs need to play the role of process police. Instead, a Lean-Agile PMO can work to orchestrate enterprise Agile adoption, providing the support teams need to fully embrace Lean-Agile practices and greater predictable delivery across the enterprise. A true Agile PMO is to a learning organisation what the heart is to a human body.

Being agile means turning into creative problem-solvers, rapid responders, and collaborators who turn feedback into innovation. This workshop will take you on the next step in your agile journey and become an Agile Alchemist. Learn how to unlock the potential and power of Agile across your organisation - at the project, program, portfolio and enterprise level. Then light the spark for complete Business Agility.

## TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.

## DAY ONE

### Kicking it off - What does agile mean to your PMO and organisation?

- ▶ Planning and executing Agile transition - The PMO perspective
- ▶ Collaborative planning techniques

### Bake it into the culture - The Enterprise Agile mindset

- ▶ The culture change - leader vs coach vs facilitator
- ▶ Governance as facilitation - relinquish day-to-day control to focus on value prioritisation
- ▶ Strategies to create a safe to fail environment

### Technical excellence and business integration

- ▶ How to manage risks with technology advancements and Agile mindset
- ▶ Understand how metrics are used in planning, analysis and reporting agile projects
- ▶ The process change - from finance tracking to value realisation

### Agile alchemy and a view to complete Business Agility

- ▶ Transition to a truly mature Agile environment
- ▶ Domains of business agility and its implementation
- ▶ Clear Agile action plan to take back to your organisation

## YOUR FACILITATOR

Helen is an Agile veteran who splits her time between start-ups and large enterprise companies. As an Enterprise Agile Coach, she has been transforming businesses towards Agility for over 10 years and is considered a veteran of the Agile movement. As CTO and co-founder, she helps start-ups to deploy a Lean and Agile approach to grow and scale business (or fail fast!). Her skills have helped corporations and start-ups to build better products faster. She is pragmatic and strives in establishing fit for purpose processes, modernising old school operations.
