ABOUT THE EVENT

Shifts and transformations occurring nationally and internationally have a dramatic effect on the Public Sector. Responsive and adaptable leaders are critical when navigating this change successfully. Leaders who are responsible for this must be strategic, influential and take responsibility for highly complex projects. This is particularly true for those in EL 1-2 roles.

Aimed at EL 1-2 level officers and management, this two-day workshop will deliver the essential toolkit for leading successfully in the Australian Public Sector. It will provide you with the chance to hone your current leadership skill set, as well as acquire new ones for taking the next step in your career. Delve into the increasing complexities of stakeholder management, building autonomy in your team and becoming a key influencer and decision-maker.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

- 1. Technical overview and review of research into the topic area under discussion
- Practical application of management principles in the review of case studies, worked examples and interactive exercises
- Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
