ABOUT THE EVENT

Project managers own a unique place within their organisation, tackling the complexities of large-scale change and the execution of vital programmes. Frameworks and forecasts form the backbone of any successful project management agenda, but to reach the next level and emerge as a true leader and business partner, project managers need to expand their knowledge base and master a new set of leadership skills.

This workshop will give you the tools to effectively guide and support your team through complex projects and reinforce healthy practice. You will learn how to tailor communication and behaviour and will gain an insight into how this affects your team's capability. Throughout a series of expert-led sessions, delegates will experience a range of new techniques and processes to assist them in overcoming the common challenges of this dynamic field.

This hands-on workshop will explore the foundations of good leadership, provide insight into communication styles and engaging with staff and stakeholders, and provide practical solutions to problems commonly faced by project management leaders. Delegates will build the leadership skills necessary to enhance their leadership performance.

YOUR FACILITATOR

Deborah is sometimes referred to as the 'The Project Fixer'. As a Senior Project Manager and Project Advisor, Deborah focuses on bringing 'rogue' projects back on track. Deborah believes it's the 'people' side of projects that often gets neglected. As an Author, Professional Speaker and Trainer of Neuro Linguistic Programming (NLP), Deborah uses the NLP methodology in her projects to guide and lead teams and stakeholders through complex challenges to deliver project outcomes.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
