#### **ABOUT THE EVENT**

Transformations in the Australian Public Sector have unlocked new and exciting opportunities for emerging women leaders to step up into senior executive roles. To successfully navigate this complex and ever-changing environment, leaders must possess keen insight into the internal and external challenges facing the sector, but also a clear understanding of themselves and the impact they have within their team, and the broader organisation.

Aspiring leaders in this environment must display reflective thinking, self-awareness, planning and strategy, but also the confidence and courage to put themselves forward for new opportunities.

This workshop will equip women with the tools and practical knowledge to build confidence in their leadership abilities and to best position themselves for career advancement. This hands-on, interactive learning session has been designed with both current and emerging leaders in mind. It aims to equip participants with a practical leadership plan they can use to navigate a successful career and advance to senior levels.

# TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

- 1. Technical overview and review of research into the topic area under discussion
- 2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
- Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.

#### **DAY ONE**

#### Managing your inner critic

- ► Recognise and manage your inner critic voice
- ► Strategies for controlling self-doubt
- ► Finding the mentor within
