ABOUT THE EVENT

The future sustainability of your organisation depends on sound asset management practice. This involves adopting a whole life-cycle approach to effectively evaluate and manage your assets, their maturity and performance. Asset Management professionals must address the need for stronger evaluative analysis and embed best practice, processes and behaviours. To unlock these efficiencies and build a valuable asset management framework, you must look to new approaches and business improvement tools to develop a comprehensive AM maturity and evaluation strategy for your business.

This interactive two-day workshop will take participants through the complexities of asset management maturity assessment and its relationship with effective service delivery for your organisation. It will provide you with the tools to monitor and evaluate asset performance throughout its maturity cycle and effectively deliver to your organisation's service needs and standards. Walk away with a clear understanding of the latest international standards, a practical action plan for asset evaluation and maturity assessment to maximise organisational efficiency.

Book now to secure your seat at this specially designed program and step up to deliver greater value to your organisation.

WHO WILL ATTEND?

Professionals working in:

- ▶ Asset Management
- ▶ Asset Performance
- ▶ Asset Development and Operations
- ▶ Infrastructure Operations
- ▶ Facilities Management
- ▶ Capital Works / Public Works
- ▶ Engineering
- ▶ Asset Integrity
- ▶ Maintenance Engineering / Reliability
- ▶ Facilities and Plant Management
- ▶ Business Improvement
- ▶ Network Services / Operations
- ▶ Asset Finance and Accounting
- ▶ Asset Register Coordination

DAY ONE

Introduction of workshop topics, establishing attendee needs and outcomes

- ▶ Understand the fundamentals of asset management and its application
- ▶ Understanding your stakeholders and their expectations
- ▶ Understand what supports asset management – tools, data, people and processes & standards
- ▶ Develop a comprehensive asset management maturity and evaluation strategy
- ▶ Understand the types of evidence organisations should collect to support their assessment

Forecast demand for asset services

- ▶ Being responsive to foreseen and unforeseen changes in demand or use
- ▶ Consider the use of non-asset service delivery alternatives to minimise demand for new assets
- ▶ Consider all means of service delivery available, and plan for the long term

Establish and advance levels of service in your organisation

- ▶ Identify your organisation's service needs and standards
- ▶ Support service delivery by providing the right assets
- ▶ Measuring levels of service performance delivered by assets
- ▶ Right time, right place - the importance of contextual factors
- ▶ Enhance service potential through improved management of existing asset base

Develop and maintain a useful asset register

- ▶ Asset register development, level of detail required and maintenance strategies
- ▶ Effectively forward planning capital renewals
- ▶ Using the asset register and valuation smartly
- ▶ Work management and asset maintenance history

DAY TWO

Meaningful risk assessment

- ▶ Identify, monitor and manage asset-related risks to effectively deliver services
- ▶ Condition assessments, valuation, forward renewal planning
- ▶ Monitor and evaluate asset performance throughout its life cycle
- ▶ Using assessment results to drive improvement

Capital decision making with a whole-of-life approach

- ▶ Maximise value for money (Revenue minus Cost over the whole of life) by accounting for full costs of acquiring, holding, using and disposing of assets throughout their life-cycles
- ▶ Adopt a whole-of-life approach to planning asset investment, maintenance planning and associated management decisions
- ▶ Embedding capital asset management as a BAU business process
- ▶ Effectively prioritising capital works

Optimising Asset Management Information Systems

- ▶ Fixing breaks in decision making and data flow from the asset to the Profit & Loss Account
- ▶ Linking the Chart of Accounts, the Asset Register, procurement and work order systems
- ▶ Tools for measuring and reporting on organisational and asset performance

Develop an Asset Management Maturity Improvement Plan

- ▶ Getting organisational buy-in
- ▶ Dealing with wish lists and political/stakeholder pressure
- ▶ How to improve your Asset Management System (A Management System for Asset Management)
- ▶ How to write a Strategic Asset Management Plan and Asset Management Plans
- ▶ How to use a SAMP and AMP

How to Improve your Asset Management Competency

- ▶ Understand your asset management competency requirements
- ▶ Develop your personal asset management competency improvement path

YOUR FACILITATOR

Peter Kohler is a leading figure in Australian Asset Management, and is recognised for his expertise of both the technical requirements of successful asset management, but also the strategic elements needed by organisations looking to optimise an asset's performance over its lifetime.

Peter has a wealth of experience in a range of different organisations, from Navy Captain, to National Chairman of MESA, and founding his own successful asset management consultancy. He developed a capability based maintenance approach for the Navy, and was the Asset Management Council's Technical manager for the certification of ISO 55001 Auditors during his time as the councils Body of Knowledge Commissioner.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
