ABOUT THE EVENT

Leading in a law firm is no mean feat. Flat partnership structures, high stakes environments, and complex governance traditions can make developing and realising your vision for the firm beyond challenging. You need sophisticated leadership skills to bring your partners with you and deliver the best outcomes for the firm, the clients, and the invested stakeholders - including you!

The two-day workshop is for senior leaders looking to hone their skills in internal stakeholder engagement, improve the agility of their firm, build resilience throughout the firm, and advance their leadership career.

Whether you're balancing your practice of law and your leadership responsibilities, or you've come to lead a law firm through your corporate experience and excellence, this workshop will take your leadership and your firm to the next level.

Facilitator James Fletcher, an experienced lawyer in the public and private sectors, has provided consulting services (training and executive coaching) to a wide range of legal executives (including at top-tier, mid-tier and boutique law firms, as well as in-house legal teams in the public and private sector), including Australia's most reputable firms. He works extensively with leaders in a range of areas such as adaptive leadership, gaining support for organisational and team vision, leading in a VUCA environment, change management and cultural reform. He has worked with the Big 4 banks as well as public sector agencies with many thousands of staff. He has supported the development of leaders from Managing Partners and CEOs to aspiring leaders and Special Counsel across the spectrum of practices.

Don't miss this opportunity to work with one of the most respected law leadership coaches in the business.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
