ABOUT THE EVENT

With an increased push for leadership excellence and competency by the State Services Commission, many emerging leaders lack the key leadership skills they need to perform in the Public Sector. Designed for Tier 4, 5 & 6 professionals, this intensive two-day event will explore the core attributes required for successful leadership within the New Zealand Government. It will deliver practical strategies for leading productive teams, improving decision making, applying strategic management thinking and developing key skills of stakeholder engagement and communication. These are increasingly becoming key competencies for Tier 4, 5 & 6 level leaders to perform at a higher level and to reach their full leadership potential.

Directly addressing the New Zealand Public Sector's leadership development guidelines, you will get the opportunity to establish a successful leadership profile and unlock your leadership potential.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

- 1. Technical overview and review of research into the topic area under discussion
- 2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
- 3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
