ABOUT THE EVENT

Leading and managing in the evolving Higher Education environment brings challenges few other professions experience. In this constantly evolving sector, authentic and resilient leadership in the face of change is pivotal to success. To lead individuals and teams effectively, it is essential that leaders understand and capitalise on their unique strengths, while still aligning their approach with the framework and values of their specific organisation.

This workshop focuses on allowing existing and aspiring leaders to be more aware of the way they exercise leadership and their impact upon others. You will be encouraged to think about your organisation holistically and to understand the opportunities and avenues in which you can be effective change agents. Expert facilitation will allow you to explore the unique skills required to lead effectively in education. Practical and interactive sessions will equip you with the strategies and techniques to enable you to reach your full potential, to pursue your chosen career path, and to achieve success.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
