ABOUT THE EVENT

Shifts and transformations occurring nationally and internationally have a dramatic effect on the NSW Public Sector. Responsive and adaptable leaders are critical when navigating this change successfully. Aligning organisational policies and strategies with the entire branch is crucial. Leaders who are responsible for this must be strategic, influential and take responsibility for highly complex projects. They must also communicate and enable their team to effectively see these projects through. This is particularly true for those in Grades 11-12 roles, where accountability and the ability to deal with highly sensitive issues is required.

Aimed at future leaders and Grade 11-12 level officers and management, this two-day workshop will deliver the essential toolkit for leading successfully in the NSW Public Sector. It will provide you with the chance to hone your existing leadership competencies and acquire new skills as you take the next step in your career.

Undertaking increasing managerial responsibilities and cultivating the strategic foresight to adapt to emerging challenges is key to success. This program will delve into the increasing complexities of stakeholder management, building autonomous teams and becoming an influential senior decision-maker.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
