ABOUT THE EVENT

In the transitional environment of the NSW Public Sector, leaders are valued for their ability to skillfully manage complex situations and withstand external challenges. To succeed as a leader and drive productivity in your teams, it is essential to develop a firm understanding of your strengths and weaknesses. In doing so, you'll learn how they can impact your team's performance as well as your own. You will need to demonstrate keen insight into internal and external challenges, show strong emotional intelligence and the ability to positively impact stakeholders to lead with greater influence and effectiveness.

This workshop will equip you with the tools and knowledge to build confidence in your abilities as a leader. This hands-on, two-day interactive learning session has been designed with both current and emerging leaders in mind. You'll be equipped with a practical leadership strategy that you can use to navigate a successful career in the NSW Public Sector.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

- 1. Technical overview and review of research into the topic area under discussion
- Practical application of management principles in the review of case studies, worked examples and interactive exercises
- 3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
