ABOUT THE EVENT

In the volatile, uncertain, complex, and ambiguous ('VUCA') world in which we live and work, organisations are increasingly performance and results focused. Performance-Based Contracting (PBC) strategies go a long way to mitigating the risks involved in such an environment by aligning the objectives and values of the contractor and organisation.

Ongoing pressure to reduce operating costs drive organisations to maximise savings, risking unforeseen repercussions. A robust PBC model will ensure a stable foundation for contract management, control and supplier relationships to evolve, flourish, and deliver cost efficient, sustainable, and superior service.

In this workshop, you will learn a structured approach to developing your PBC, with consideration to the entire life-cycle of the relationship. You will learn how to identify the right partner at best cost, manage the contract from drawing to fulfillment, and maintain a mutually beneficial business relationship beyond the close of the agreement.

Join the host of organisations and sectors capitalising on the benefits of PBC, avoiding the common pitfalls, and maximising efficiency and productivity gains.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.

AGENDA

Defining a performance-based contract

- ▶ Identify your key performance objectives within your service levels using O-S-T (Objectives – Strategy – Tactics)
- ▶ Understand the essential elements of the performance-based contract
- ▶ Develop your Procurement Plan in support of the PBC
- ▶ Define a process for developing a performance-based contract

Setting performance levels and establishing the outcome of the arrangement

- ▶ Understand what the outcome of a performance-based contract should be
- ▶ Pin-point the key elements for contractual success
- ▶ Identify and manage stakeholders
- ▶ Define required performance levels

Identifying the Key Performance Indicators

- ▶ Utilise a practical methodology for determining KPIs
- ▶ Understand the role and impact of KPIs from a 'whole of contract' perspective
- ▶ Analyse risk assessment mechanisms
- ▶ Incorporate risk into the performance model

Performance-based contract governance & control

- ▶ Foster a healthy culture of urgency and healthy vigilance
- ▶ Understand the importance of visibility, reporting and performance tracking for procurement functions
- ▶ Contextualise supplier relationship management in performance-based contracting
