## **ABOUT THE EVENT**

Despite businesses and organisations across the globe closing their doors and making the move to remote work, the Public Sector is open for business, and while you are continuing to deliver essential services to the community, the way you do business is changing. As we continue to navigate our way through these unprecedented times, there is a heightened focus on performance and results in the Australian Public Service, more is expected from emerging leaders in the APS6 to EL1 bands who often sit at the intersection of operations and strategy. In a turbulent operating environment that's characterised by instability, moving goalposts and change, many managers struggle to implement strategy and effectively 'manage for results.'

As an emerging leader, you must effectively bridge the gap between planning and action. You are also responsible for galvanising your teams to execute and implement a strategy. The 2018-19 APC State of the Service Review highlights that 65% of staff are experiencing change, only 39% are satisfied with how that change was communicated. As emerging leaders, you sit at the heart of this opportunity for efficiency gain.

This hands-on program is designed to give you the latest tools, techniques and practical frameworks to successfully manage for better results in today's fast-changing world. The program will connect theory with practice and over the course of the training, you will build a personal action plan to apply when you return to work.
