ABOUT THE EVENT

Transformations in the New Zealand Public Sector have unlocked new and exciting opportunities. To navigate this complex and ever-changing environment, you need keen insight into the internal and external challenges facing the Public Sector. You also need a clear understanding of yourself and the impact you have on your team.

To step into leadership, you must display reflective thinking, self-awareness, planning and strategy. These skills will help you build the confidence to put yourself forward for new opportunities.

This workshop will give you the tools and practical knowledge to build confidence in your leadership abilities and position yourself for promotion. You'll have the chance to create a practical leadership plan you can use to navigate a successful career and progress to senior levels.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
