ABOUT THE EVENT

The Victorian Public Sector is open for business and thriving in the wake of 2020. While you are continuing to deliver essential services to the community, the way you do business is changing.

As we continue to navigate our way through these unprecedented times, there is a heightened focus on performance and results in the VPS, more is expected from emerging leaders who often sit at the intersection of operations and strategy. In a turbulent operating environment that's characterised by instability, moving goalposts and change, many managers struggle to implement strategy and effectively 'manage for results.'

As an emerging leader, you must effectively bridge the gap between planning and action. You are also responsible for galvanising your teams to execute and implement a strategy. As emerging leaders, you sit at the heart of this opportunity for efficiency gain.

This hands-on program is designed to give you the latest tools, techniques and practical frameworks to successfully manage for better results in today's fast-changing world. You will connect theory with practice and over the course of the training, you will build a personal action plan to apply when you return to work.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
