## ABOUT THE EVENT

Despite businesses and organisations across the globe closing their doors and making the move to remote work, the Victorian Public Sector is open for business, and while you are continuing to deliver essential services to the community, the way you do business is changing.

As we continue to navigate our way through these unprecedented times, there has never been a greater need for effective, agile, diverse and collaborative leadership. To achieve the VPS's vision for a trusted public sector that achieves both excellence and safety for the Victorian community, leaders need to embody the public sector values. Emerging leaders eager to take their career to the next level need to undertake work of a more complex nature and enhance their skills to strengthen the efficiency, effectiveness and capability to deliver high-quality service.

Aimed at VPS 5-6 level officers and management, this online workshop provides you with the unique opportunity to advance core skills and explore emerging leadership capabilities, particularly through this time of isolation. You will delve into practical strategies relating to leading productive teams, improving decision making, applying strategic management thinking, developing key skills of stakeholder engagement, and learn to communicate with confidence.
