ABOUT THE EVENT

The Banking and Financial services industries have been subject to massive disruption and uncertainty in the last few years. With the influx of financial conglomerate subsidiaries and smaller banking companies, the industry is in a state of increased competition. There has been significant progress in narrowing the gender gap through these changes but there is still a major imbalance in women occupying executive-level positions. To stand out in this unique environment, you need to embrace the complexities and uncertainties, build your resilience, and take accountability for your career advancement.

This hands-on, two-day interactive learning will equip you with a practical leadership plan that you can use to navigate a successful career and advance to senior levels in the Banking & Financial services industries.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

- 1. Technical overview and review of research into the topic area under discussion
- 2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
- 3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
