## ABOUT THE EVENT

The rapidly evolving world of logistics and supply chain presents unique challenges and rewarding opportunities for you to shine as a leader. To step up into leadership, you must learn to manage the complexity of a segmented contract workforce, understand its intricacies and interdependencies, as well as technical competencies like contracting and Chain of Responsibility. You may also encounter more personal challenges, like unconscious bias and imposter syndrome.

This specially designed two-day program will help you crack the code to lead (and live) courageously. Explore the potential of a strengths-based leadership approach, effectively manage risk, build high-performing teams, and influence key stakeholders throughout the chain. Walk away with the tools and knowledge to build resilience and position yourself to advance your career in supply chain & logistics.

## WHO WILL ATTEND?

Leaders and emerging leaders from across the logistics and supply chain, including:

- Transport and Logistics
- Warehousing
- Postage and Packaging
- Inventory
- ► Material Handling
- Waste Management

And internal logistics and supply chain management roles across the public and private sectors including Supply, Logistics, Procurement, Commercial and related disciplines across a variety of levels:

- ▶ Director
- ► Head of
- ► Group Manager
- Senior Manager
- Manager
- ▶ Line / Business Manager
- ► Team Leader

## YOUR FACILITATOR

Lisa is a sought after Leadership Coach with over 25 years in operational and executive roles in the Australian Oil Industry, with a focus on supply chain transformation, bulk transport and logistics. Throughout her career Lisa has a track record of delivering projects and change programs that shift the organisations' people and performance. She has lead, mentored and coached her teams delivering sustainable and effective management systems, improvements in operating areas and significant cost reductions.

Lisa provides leadership, mentoring and coaching for people and teams in a broad range of roles with broad backgrounds and levels of experience. With a strong operations and engineering background, she understands the unique drivers of the logistics and supply chain space, and the relationships and responsibilities that are crucial to thrive in this dynamic industry, from the shop floor to the boardroom.
